

Good evening dear family, friends and guests,
Thank you all for coming to honor me and celebrate
The most important day of my life, it is not obvious
And I am happy to see you here so joyous
This is the day I turn into almost a grownup
And it could not have happened if not for the backup
Of the one above who decided one day
That the world without me is not the same
So, he brought my parents together so they
Can bring me to life to stand here today
My special dad, the one and only
That always has time for me, so I'm never lonely
Always making sure we are happy and safe
I love you more than life itself
My lovely mom, tender and caring
Always patient, never stops worrying
Thank you, dear mom, I love you so,
For giving me your heart and all your soul
And of course, thank you my grandpa and grandma,
All four
May you all know happy and healthy days for evermore
Warm wishes I send to my uncles, aunts and cousins
May we meet only on happy occasions
And not to forget my amazing sisters and brothers
Who help me in so many ways (to get into trouble)
I know they love me, and I love them the same
Even if we fight sometimes, it's only a game
I also want to thank you, all my dear friends
Who support me whenever I need a hand,
I love being with you and talking over the phone for hours

Now take another selfie - with me, not with the flowers
Because today is my Bat Mitzvah, so put it on Instagram
And now, let's all have some fun!

Love you all!
